

## 2nd Annual Needham Night

Needham Night is a long-time town tradition that gathers the town's top business and civic leaders together to kick off the new year and celebrate all the things that make Needham such a special place. Network with your fellow town merchants and business professionals during a lively cocktail hour and then sit down for dinner and hear from a special guest speaker from a company everyone has been talking about.

Your financial support of the first annual Needham Night will send a strong signal that your business is committed to Needham's economic and cultural vitality as we recognize the significant contributions to those who greatly impact the quality of life in our town.
